

## Treatment/Recovery Programs -- Participant Statistics By Agency

Chapter 5 provides a description of program participants by agency. During the 2003-04 Fiscal Year, ADPA contracted with 152 agencies that provided treatment/recovery services to 59,479 participants. Note, a participant can receive treatment/recovery services from more than one agency during the fiscal year. Therefore, the number of participants shown in this chapter is greater than the number of participants shown elsewhere in this Review.

Table 5.0 lists each agency alphabetically and shows the number of participants and admissions reported during the fiscal year. The second part of the chapter (Tables 5.1 through 5.152) provides participant demographics for each of the 152 agencies.

Several salient points regarding contracted agencies are:

- ◆ ADPA contracted with 24 new community-based agencies during the 2003-04 Fiscal Year. New community-based agencies are noted with an asterisk in Table 5.0. The majority of these new agencies provided Drug Medi-Cal services.
- ◆ Of the 152 agencies, 11 served only female participants and 6 served only male participants. These gender-specific agencies are listed below:
